this book one in the series library of living catholic thought is published in special commemoration of the ignatian year the four hundredth anniversary of the death of st ignatius loyola this is an account of days remembered by the saint and dictated by him to his faithful disciple gonzález de cámara it covers the period from his wounding and surrender to the french at pamplona in 1521 to the time of his coming to rome in november 1537 st ignatius dictated his story only after long and continuous pressure on the part of his spiritual sons to give them some account of his founding of the society of jesus father de cámara was fortunately gifted with an extraordinary memory he took notes as ignatius dictated and later wrote out at greater length the discourse as he remembered hearing it from the lips of ignatius making use even of his very words the dictation as was to be expected was brief and summary and to the point with no attempt at literary

polish in the translation some attempt has been made to preserve the rather homespun texture of the language latin versions were early available but this book represents the first translation into english from the original text print ed

the destruction of the tropical forests continues rapidly we all know that this has global ecological and economic consequences the problem is of such magnitude that it can only be compared to warfare the destruction of tropical forests is both detrimental to the global ecology as well as posing a serious threat to the people living in these areas furthermore the overutilization of such a valuable resource poses a serious threat to the next generations besides the problem generated for the people in these regions and for the earth in general there is a moral obligation to preserve the vast biological diversity in the tropical forests we have a commitment to all species on earth as well as man and therefore need to preserve as many as possible if not all this book discusses the problem from different angles from forestry ecology and nature conservation the two main problem areas are first the wise utilization of that portion of the forest which will be used especially the introduction of planned forestry in such areas and second the development of a good plan for nature conservation in the tropics
